

## ABSTRACT

*Name* : Zulfrani Farqih  
*Study Program* : Urban and Regional Planning  
*Title* : Identification of Public Perceptions of (Oplet)  
in Pontianak City  
*Counsellor* : Dr. Ratna Agustina, S.T., M.T., DEA

Congestion is a polemic that has not been resolved to causing problems, one of which occurred in The Pontianak City. Efforts made by the government in overcoming this matter are by increasing the quality and quantity of the city public transportation sytem. Provision and development of transportation should be carried out with regard to its links to “Trigatra”, geography, natural resources, and population. City transportation in Pontianak City is known as oplet, but now it has begun to decrease its use as a mode of public transportation. The situation eventually became complicated, reduced the number of transport fleets and passengers, causing many cooperatives of oplet drivers to close.

*The purpose of this study was to identify people's perceptions of oplet in Pontianak City. The data needed in this analysis are primary data and secondary data. The number of samples used in this study were 100 people from Pontianak City who were randomly selected, while the analysis techniques used were crosstab analysis method and descriptive analysis method. Crosstab analysis is used to analyze the data obtained through a questionnaire by selecting variables that are considered related and then analyzing it to find out what variables are related to people's perceptions of oplet in Pontianak City. Then descriptive analysis is used to describe the existing conditions of oplet in Pontianak City.*

*Based on the results of the crosstab analysis that has been carried out, the variables related to people's perceptions of oplet in Pontianak City are variables of the ease of getting oplet and oplet services. Then the benefits that can be felt if oplet are revitalized by the government and by the community, both the people of Pontianak City and the tourists, it is easier to travel and will save costs.*

**Keywords:** motorcycle, car, city transportation, oplet, travel, crosstab analysis.
